Henry C. Query, Jr.  
504 S. Pierce Ave.  
Wheaton, IL 60187Assistant Commissioner for Patents  
Washington, DC 20231Amendment After Final

In response to the final Office Action dated February 12, 2003, please  
amend the above-identified application as follows.

In the Claims:

Claim 1 has been amended to read as follows:

1(Twice Amended). In combination with a component which comprises an  
elongated body and a fluid flow passage that extends generally longitudinally  
through the body and includes at least a lateral first branch connected to a  
longitudinal second branch, a gate valve comprising:

a gate cavity which is formed in the body and which communicates  
with both the first branch and the second branch;

a gate which is movably positioned in the gate cavity and which  
includes a first flow port that is connected to a second flow port; and
